

On the topic of the faculty union:

Ever since this arose last week, we have been meeting and discussing in our own personal time and as an exec board just to learn more and be informed. As individual students you can take whatever stance you want and sign whatever you want. But as a student government, we will not take a side on this situation.

We are to support equity for all faculty, staff, and students as we work to build a stronger educational community. Right now, the faculty has some things they need to talk about. As they talk, we will give them their time and space. And we will be watching how this unfolds very closely.
